ROUTE 210 WORK NEAR 27th STREET TO GENERATE NOISE

State Route 210 construction crews will be anchoring the freeway bridge being widened at 27th Street west of Interstate 215 in San Bernardino, starting in late September or early October. Crews will anchor the bridge by driving steel beams into the ground near the intersection of 27th Street and Route 30.

Known as "pile driving," this operation will create repetitive noise throughout the day. Work will last about three weeks. Work will take place Mondays through Thursdays from 7 a.m. to 5 p.m. and on Fridays from 7 a.m. to 3 p.m. San Bernardino Associated Governments regrets any inconvenience this noise may cause and thanks residents and business operators in advance for their patience.

For more project information, call the Route 210 toll-free helpline at 1-866-HELP-210 or visit the SANBAG website at www.sanbag.ca.gov. SANBAG and Caltrans appreciate your understanding during construction of this new freeway. Please allow extra travel time, follow signs and posted detours, and drive carefully through construction zones.

Remember, Safety: It's no accident!
